Investment objective

- The PSG Wealth Global Creator Feeder Fund (the "portfolio") is a Rand denominated feeder fund that invests solely in the PSG Wealth Global Creator Fund of Funds (the "underlying fund"), a collective investment scheme portfolio under the PSG Global Portfolio domiciled in Malta.
- The investment objective, via its holding in the underlying fund, is to maximise capital returns through active management of a diversified portfolio of equity-based collective investment schemes and assets in liquid form.
- The underlying fund may hold financial instruments exclusively to hedge exchange rate risk and may invest in collective investment schemes that use derivative instruments for efficient portfolio management.
- Please refer to the MDD as well as the prospectus of the underlying fund.

Specific fund risk

- High short-term capital loss risk due to significant exposure to global equity markets.
- Equity (market) risk: Equity markets can be volatile and prices may fluctuate significantly due to economic, political and company-specific factors.
- Currency risk: As a Rand denominated feeder into a foreign currency fund, returns can increase or decrease due to exchange rate movements.
- Concentration risk: Exposure to specific countries, sectors or investment styles may increase volatility and underperformance risk.
- Derivative risk: Where derivatives are used (directly or within underlying holdings), gains and losses may be magnified.
- Jurisdictional Risk: The portfolio invests in foreign securities and may be subject to liquidity and repatriation constraints, macroeconomic and political risks, foreign exchange, tax and settlement risks, and limitations on the availability of market information.

Rolling returns (%)

The rolling return chart reflects the highest, lowest and average annualised return over the period indicated since the inception of the fund. For example, for the 1 year period the chart reflects the highest, lowest and average 12 month return the fund has experienced since its inception. Rolling returns highlight the magnitude of an investment's stronger and poorer periods of performance.

What is a Total Expense Ratio (TER)?

- The Total Expense Ratio (TER) is the annualised percentage of the Fund's average assets under management that has been used to pay the Fund's actual expenses over a one- and three-year period.
- This percentage of the average Net Asset Value (NAV) of the portfolio was incurred as charges, levies and fees related to the management of the portfolio.
- A higher TER ratio does not necessarily imply a poor return, nor does a low TER ratio imply a good return. The current TER cannot be regarded as an indication of future TERs.
- Part of the Annual Management Fee may be payable to the financial intermediary. The sum of the TER and transaction costs is shown as the Total Investment Charge.
- Since Fund returns are quoted after the deduction of these expenses, the TER and transaction costs should not be deducted again from published returns.

Disclaimer

Collective Investment Schemes (CIS) in securities are generally medium to long term investments. The value of participatory interests (units) or the investment may go down as well as up and past performance is not a guide to future performance. Fluctuations or movements in the exchange rates may cause the value of underlying international investments to go up or down. CIS are traded at ruling prices and can engage in borrowing and scrip lending. The portfolio may borrow up to 10% of its market value to bridge insufficient liquidity. Where foreign securities are included in a portfolio, the portfolio is exposed to risks such as potential constraints on liquidity and the repatriation of funds, macroeconomic, political, foreign exchange, tax, settlement and potential limitations on the availability of market information. The portfolios may be capped at any time in order for them to be managed in accordance with their mandate. PSG Collective Investments (RF) Limited does not provide any guarantee either with respect to the capital or the return of the portfolio. Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided.

Feeder Funds

A Feeder Fund is a portfolio which, apart from assets in liquid form, invests in a single portfolio of a collective investment scheme, which levies its own charges, and which could result in a higher fee structure for feeder fund portfolios.

Performance

All performance data for a lump sum, net of fees, includes income and assumes reinvestment of income on a NAV to NAV basis. Annualised performances show longer term performance rescaled over a 12-month period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Performance is calculated for the portfolio and individual investor performance may differ as a result thereof. The portfolio is valued at 15h00 daily. The cut-off time is determined by the investment platform. Income distributions are net of any applicable taxes. Actual annual figures are available to the investor on request. Prices are published daily and available on the website https://www.psg.co.za/psg-multi-managed-funds and in the daily newspapers. Figures quoted are from Morningstar Inc. Performance figures are for illustrative purposes only.

Pricing

Forward pricing is used. Unit trust prices are calculated on a net asset value (NAV) basis, which is the market value of all assets in the portfolio including income accruals less permissible deductions divided by the number of units in issue.

Redemptions

The ability of a portfolio to repurchase is dependent upon the liquidity of the securities and cash of the portfolio. To protect investors, a manager may suspend repurchases for a period, subject to regulatory approval, to await liquidity. A suspension ensures that the sale of a large number of units will not force PSG Collective Investments (RF) Limited to sell the underlying investments at a price in the market which could have a negative impact on investors. PSG Collective Investments (RF) Limited will keep all investors informed should a situation arise where such suspension is required.

Fees

A schedule of fees and charges and maximum commissions is available on request from PSG Collective Investments (RF) Limited. Commission and incentives may be paid and, if so, are included in the overall costs. Different classes of Participatory Interest can apply to these portfolios and are subject to different fees, charges and possibly dividend withholding tax and will thus have differing performances.
